Certificate of Achievement for Excellence in Financial Reporting

Presented to
Valley Center
Municipal Water District
California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2006

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

A handwritten signature in black ink, appearing to read "Thomas J. Blain".

December 17, 2007

Gary A. Broomell, President
Members of the Board of Directors
Valley Center Municipal Water District
29300 Valley Center Road
Valley Center, CA 92082

We are pleased to present the Valley Center Municipal Water District's Comprehensive Annual Financial Report for the year ended June 30, 2007. The purpose of the report is to provide the Board of Directors, our customers, and any other interested parties with reliable financial information about the District.

The report was prepared by the District's Finance Department in accordance with accounting principles generally accepted in the United States of America. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District's management. We believe the data, as presented, is accurate in all material respects and that it is presented in a manner designed to set forth fairly the financial position and results of operations of the District. Included are all disclosures we believe are necessary to enhance the understanding of the financial condition of the District.

The Comprehensive Annual Financial Report is presented in three main sections:

- The Introductory Section, which includes this transmittal letter with other pertinent information to assist in understanding the financial condition of the District and the results of its operations for the year.
- The Financial Section, which includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A) of the Financial Statements, the District's Financial Statements for the Fiscal Year ended June 30, 2007, explanatory footnotes on the financial statements and supplemental schedules. The MD&A provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A compliment this letter of transmittal and should be read in conjunction with it.
- The Statistical Section, which includes a number of unaudited tables describing the financial history of the District for the past ten years, as well as demographic and other miscellaneous information.

PROFILE OF THE DISTRICT

REPORTING ENTITY

For reporting purposes, the financial statements present a combined report which includes all District activities for which the Board of Directors of Valley Center Municipal Water District is primarily financially accountable. The District has established various self-balancing groups of accounts in order to enhance internal control and further the attainment of management objectives. The groups of accounts are identified in the District's books and records as General, Lower Moosa Wastewater Treatment, and Woods Valley Ranch Wastewater.

General operations account for all activity related to water operations as well as the general operations of the District. Lower Moosa Wastewater Treatment and Woods Valley Ranch Wastewater Treatment account for the wastewater collection and treatment operations for these two facilities which service separate and limited areas of the District. Activity not included as a part of this report is limited to Assessment District No. 96-1, described in Note 6.

AUDIT AND BUDGET

District records are maintained on an enterprise basis, as it is the intent of the Board of Directors that the costs of providing water and wastewater services to the customers of the District are financed primarily through user charges. Revenues and expenses are recognized on the accrual basis in that both revenues and expenses are recognized in the accounting period they are earned or incurred. Capital assets are recorded in the fund purchasing the asset.

The District requires an annual audit of its financial statements by an independent certified public accountant. The accounting firm of Leaf & Cole, LLP, was appointed by the Board of Directors to conduct this year's audit. Their audit report, which contains an unqualified ("clean") opinion on the District's financial statements, is located at the front of the financial section of this report.

The District is not legally required to adopt and adhere to a budget or report on compliance with any prepared budgets. However, the Board of Directors chooses to approve a budget to be used solely as a management tool. Depending upon the timing and level of the demand for water services, the revenues and expenditures may vary significantly and cannot be strictly controlled by means of detailed and rigid appropriations. Therefore, the budget must be viewed as an estimate only. Budget appropriations for major capital projects continue from year to year until the project is completed.

Valley Center Municipal Water District operates within a system of internal accounting controls established and continually reviewed by management to provide reasonable assurance that assets are adequately safeguarded and transactions are recorded correctly according to District policies and procedures. When establishing or reviewing control, management must consider the cost of the control and the value of the benefit derived from its utilization. Management normally maintains or implements only those controls whose value adequately exceeds their cost.

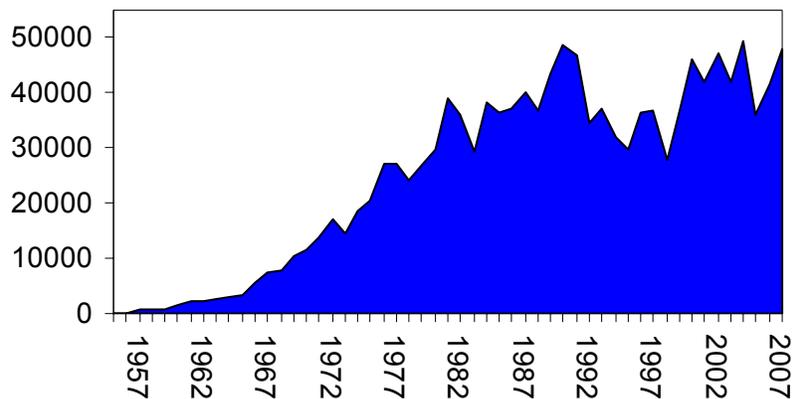

DISTRICT FORMATION AND ORGANIZATION

Valley Center Municipal Water District was founded on July 12, 1954, pursuant to the California Municipal Water District Law of 1911. The District encompasses approximately 100 square miles of land in northern San Diego County. The District provides water and wastewater services to its domestic, agricultural and commercial customers. While growth continues to occur, primarily in the domestic market, it is the agricultural customers that generate the largest demands on the system. Although comprising 18% of the total customers, 79% of the total water demand was used to irrigate avocado and citrus groves as well as for many other agricultural purposes.

A five-member Board of Directors, elected by geographic division, governs the District. The Board manages through an appointed general manager and three department heads which oversee the Finance, Engineering, and Operations Departments. There are currently 80 employees working for the District.

Valley Center Municipal Water District purchases 100% of its water from the San Diego County Water Authority (SDCWA or “Authority”) at a cost \$24.5 million, or 60% of District operating expenses. The Authority imports most of its water from the Metropolitan Water District of Southern California (MWD). The District sold 48,085 acre feet of water during the year ended June 30, 2007.

WATER SALES In Acre Feet

The District’s water system includes 8 aqueduct connections, 42 reservoirs, 26 pumping stations and 294 miles of water main. In 2003-04, its peak year, the District sold 49,336 acre feet of water, a quantity sufficient to meet the water usage needs of a city of approximately 200,000 people. The District remains the second largest water retailer of imported water within the San Diego County Water Authority behind only the City of San Diego. The District is also the largest retail purchaser of agricultural water within the Metropolitan Water District’s service area.

In addition to water supply, the District also provides sanitation service for approximately 2,624 customers through two wastewater treatment facilities: the 500,000 gallon per day Lower Moosa Canyon Water Reclamation Facility at Circle R Drive near Old Highway 395 and the second wastewater system which will ultimately serve 270 homes and a golf course in Woods Valley Ranch. Construction of the permanent treatment facility is being performed by the developer. A temporary 50,000 gallon per day treatment facility plant is currently being used to treat the wastewater flows for the homes connected to the system prior to completion of the permanent plant. Completion of the permanent treatment facility is estimated in the fourth quarter of 2007.

ECONOMIC CONDITIONS

The estimated population of the District is 25,665. According to the San Diego Association of Governments (SanDAG), in the Valley Center Community Plan Area, which encompasses part but not all of the District, the median age in 2006 was 40.8 years and the median household income was \$81,055. 24% of the residents were under the age of 18 and 16% age of 65 and older.

From 2000 to 2007, the population increased 22%, and is forecast to increase 25% by 2010 and a total of 126% by 2020. Median household income (adjusted for inflation) dropped 2.5% from 2004 to 2006, but is expected to increase more than inflation through 2020.

DISTRICT ECONOMIC RESULTS

The demand for new connections slowed slightly from the previous year, with the District's total active meters increasing in 2006-07 by 124 meters to 9,745, which includes 912 fire meters. In addition, the District has service availability letters for approximately 100 connections in process, including homes in the Rimrock and Sherwood Ridge developments.

Water sales for 2006-07 were 48,085 acre feet, up 6,357 acre feet or 15.2% from sales of 41,728 acre feet in 2005-06. Rainfall was seven and one-half inches, compared to thirteen and one-half inches for the previous year. This wide fluctuation of water sales, resulting primarily from weather conditions, illustrates the influence of agriculture on total water demand.

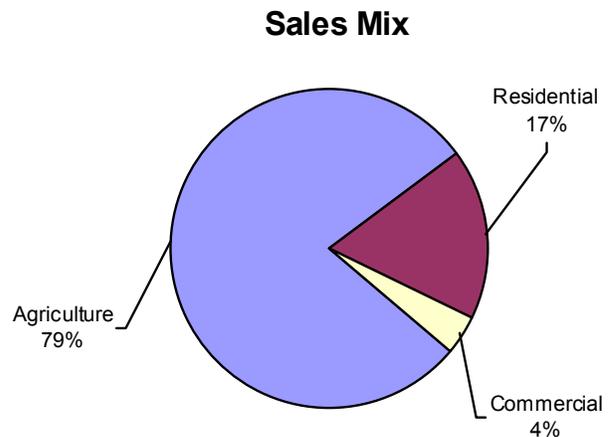

Agricultural users purchased 79% of the District's total water sales in fiscal year 2006-07, similar to 81% in 1996-97. The average water sold to the District's agricultural users over the previous ten year period was 81%. As water is one of the largest costs of farmers in San Diego County, agricultural users in the area are continually developing more efficient irrigation systems.

Since May of 1994, the Metropolitan Water District's Interim Agricultural Water Program (IAWP) has provided a discount to qualifying agricultural water users. In addition, the San Diego County Water Authority offers a rebate on their water rate. In exchange for reduced rates, agricultural customers agree to have their water supply reduced first during droughts and other emergencies. For the calendar year 2007 discounts total \$207 per acre foot, saving the District's agricultural customers \$8.3 million in 2006-07. While it is anticipated that MWD will continue the agricultural credit program, it is also expected that agricultural water deliveries will be reduced by 30%, beginning January 2008, due to water supply constraints in California.

Energy – Ongoing energy challenges facing the District include the volatile cost of natural gas supplies and summer peak day supply issues for electricity. Intermittent electricity supply shortages on peak summer days remain possible through the next few years as construction and permitting of new electricity generation lags behind the steadily increasing demand. Following electric rate increases in 2006, due to natural gas supply shortages and generation capacity constraints, prices are expected to stabilize.

The District remains proactive in developing solutions to minimize these increased costs, including installing more efficient pump motors, rebuilding electrical control panels, and pumping at off-peak hours whenever possible. At the end of 2006-07, the District was completing negotiations on a power purchase agreement, signed August 27, 2007, for the design, construction, and operation of a solar power generation facility at Lake Turner. Solar power would provide renewable green energy while reducing overall energy costs.

Long-Term Financial Planning – New or expanded facilities are funded by capacity fees collected by the District when new meter services are purchased and from interest earned on existing reserves. Capacity fees are set to fund system improvements identified in the District's Water Master Plan to support additional service connections. Replacement facilities are currently financed from standby fees and capital reserves on a pay as you go cash basis. This reserve is funded annually by a combination of excess operating and non-operating revenues.

Facilities which are identified and budgeted annually for replacement are not determined solely by the depreciation schedule, but are identified through a process which assesses a combination of factors, including age, condition, and the critical nature of the facility. Also, existing facilities are replaced when the County of San Diego road improvements force relocation or private development projects provide the opportunity to replace an existing facility.

At June 30, 2007, the District had \$535,000 in revenue bonds. No new debt was issued during the year just ended. The District is currently reviewing the possibility of a debt issuance during the 2007-08 fiscal year.

MAJOR INITIATIVES - EFFORTS AND ACCOMPLISHMENTS

Strategic Plan Specific Goals - Throughout the year, progress was made on the Strategic Plan Specific Goals, adopted by the Board of Directors, as follows:

Geographical Information System (GIS) – Basic GIS services have been made available to the office staff through the core map service viewer on the District’s Intranet Homepage. The District’s GIS staff provides specific mapping and analysis services for various projects using diverse databases developed for the GIS. The facility infrastructure has been converted from AutoCAD format to Environmental Systems Research Institute (ESRI) personal geodatabase format. This converted data is compatible with SQL (Structured Query Language), a more robust database software system that will allow multiple users faster concurrent access to the central data. It will also integrate with other future applications including facility work order maintenance and management software that will allow for a more efficient workflow and facility maintenance. The GIS was augmented by the addition of six-inch pixel resolution aerial imagery and two-foot topographic contour data. The aerial and topographic data have been very beneficial in project planning and analysis.

Supervisory Control And Data Acquisition (SCADA) System – A construction contract for the initial 14 sites to be converted to the radio based SCADA system was awarded. These sites consist of the major pump station sites (Betsworth, Miller, Rainbow, Valley Center, Oat Hill, Paradise and Couser) and key reservoir sites (Red Mountain, Meadows, Country Club, Cool Valley, Cobb, San Gabriel and Paradise) needed for relay sites to establish the backbone of the radio system. Construction is underway and scheduled for completion in 2007-08. SCADA Improvements at Central are under construction as well and are scheduled to be completed in early 2007-08. These improvements include the removal of the existing control console and conversion to a computer based control system for all District facilities, the removal of the wall mounted reservoir level charts and installation of two wall mounted monitors for viewing the status of the water distribution system, the remodeling of the control room, and the upgrade of the SCADA system computer servers to archive data and provide system redundancy and reliability.

Lake Turner Solar Power Project – By the conclusion of 2006-07, the District was very close to signing a Power Purchase Agreement with the Solar Power Partners-WorldWater and Solar Technologies Consortium to design, construct and operate the Lake Turner Photo-Voltaic Solar Project which, when completed, will generate and deliver up to 1.0 megawatts of solar electricity to the District’s nearby Betsworth Pumping Station. This agreement was signed August 29, 2007. If the project progresses as anticipated and state and federal incentives and credits are secured, the project should be under construction by January of 2008, and in operation by May or June of 2008.

Carlsbad Sea Water Desalination Project – Progress continued on the public-private partnership between Poseidon Resources, the City of Carlsbad, the District, and five other contract agencies to gain approval, permitting, construction, and operation of a 56,000 acre foot per year seawater desalination facility in Carlsbad. The combined efforts of the “San Diego Desal Partners” helped to raise public awareness, acceptance, and political support for the project. At the end of 2006-07, the project was moving toward two critical hearing dates with the State Lands and California Coastal Commission later in 2007. If everything goes well at these two hearings, it is hoped that the plant will be on line and delivering high quality desalted seawater by late 2010.

STRATEGIC PLAN PERFORMANCE MEASUREMENT STANDARDS RESULTS FOR YEAR ENDED JUNE 30, 2007

1. CUSTOMER SATISFACTION - *Our standard will be that our service “meets” or “exceeds expectations” 95% of the time, based upon the “Customer Comment Cards” responses.*

Survey responses show we met or exceeded expectations 97.8% of the time.

2. UNKNOWN WATER LOSS - *Our standard for unaccounted water loss will be less than 5% per calendar year.*

Unknown water loss for calendar year 2006 was 3.2%.

3. OPERATING RESERVES - *Operating Reserves shall be equal to six months operating and maintenance expenses (excluding wholesale water and power purchases).*

Our Operating Reserve at year end represents approximately 3.7 months operating and maintenance expenses. Including the rate stabilization and pumping rate stabilization un-appropriated reserve funds would increase this to six months.

4. DISTRICT SHARE OF TOTAL WATER COMMODITY COSTS - *We will hold the local share of total commodity costs as low as possible, but at no time will the local rate be more than 13% of total water commodity cost for Municipal and Industrial and 16% for Certified Agricultural.*

The District’s component of the water rate for operating costs is currently 12.4% and 16.4% of Municipal and Industrial and Certified Agricultural total commodity costs, respectively.

5. PUMP EFFICIENCY - *Through ongoing testing, adjusting, and maintenance, we will maintain pump efficiency above 95% of the design criteria.*

Our pump efficiency was 101.3% of the design criteria.

6. PROJECT ACTUAL COST - *± 10% of Engineer’s estimate.*

Eleven projects were bid with aggregate results 4.0% more than estimated.

7. WATER SERVICE RELIABILITY GREATER THAN 99% - *We will strive to maintain water service to all customers at greater than a 99% reliability level. This will be measured based upon total hours of service interruption against all service hours in a given measurement period.*

Reliability was better than 99%.

8. COMPLIANCE WITH ALL STATE & FEDERAL REGULATIONS.

100%.

9. LOST-TIME ACCIDENTS LESS THAN 1% OF TOTAL HOURS WORKED.

The District had one-lost time accident in 2006-07 representing 0.14% of total hours worked.

10. RETURN ON INVESTMENTS - *While seeking to preserve capital and maintain a level of liquidity necessary to meet cash flow requirements, our rate of return, on an annualized basis, shall be at least equal to the average rate of return on one year U.S. Treasury Bonds.*

Our investment return was 4.837%, while the 12-month rolling average for U.S. Treasuries was 4.960%, or 0.1457% under the standard. While not meeting the standard, this rate of return was up 145.7 basis points or a 43% better rate of return compared to 2005-06.

PLANNING AND CONSTRUCTION PROJECTS

Transmission, Distribution, and Storage Facilities Improvements –The Couser Pump Station was placed on-line increasing pumping capacity and efficiency within the San Gabriel pressure zone as was the Via Cantamar Pump Station, providing increased flows and pressures within the Country Club pressure zone. The Couser Way pipeline replacement project was completed as was the upgrade to the Merry Ferry and East Miller pressure reducing valve stations, providing improved maintenance and operations accessibility. The new Jesmond Dene Reservoir pressure reducing valve station was built and put in service. The Automated Meter Reading (AMR) program was accelerated, with the completion of six meter books, approximately 2,100 meters.

Major projects currently underway in the District include: the replacement of approximately 17,708 feet of pipeline in Valley Center Road in conjunction with the County of San Diego's road widening schedule. The Automatic Meter Reading conversion program, started in April 2007, is in full swing with approximately 20 percent of the meters exchanged as of June 30, 2007.

South Village Water Reclamation - Construction of the 70,000 gallons per day permanent wastewater treatment facility to serve the Woods Valley Ranch Subdivision is in the final stages of completion. Service to the homes, already connected to the system, continues to be provided by the previously constructed 50,000 gallons per day interim water reclamation facility which will be removed after completion of the permanent plant. Initial planning has begun on the proposed expansion of the plant to serve the South Village area. The District has received deposits from over thirty (30) property owners requesting service for 155 equivalent dwelling units (EDU's) in the expansion project. The District has consultants, either under contract or in contract negotiations, to complete the environmental documents, the waste discharge permit, and the preliminary design report. Completion of these items is scheduled for spring 2008 at which time formation of the assessment district and final design will proceed.

Lower Moosa Canyon Water Reclamation Facility - The Lower Moosa Canyon Water Reclamation Facility provides wastewater service to the Interstate 15 corridor area of the District, which includes the communities of Hidden Meadows, Lawrence Welk Village, Castle Creek, Champagne Village, the Treasures, Islands, and Oak Woodlands. Currently, the capacity of the plant is 0.5 m.g.d. (million gallons per day) which easily accommodates the existing average daily flow rate of approximately 0.33 m.g.d. Ultimate capacity requirements for the service area are projected at 1.0 m.g.d. (5,000 Equivalent Dwelling Units). Timing for further expansion depends on the growth rate in the service area.

The Lower Moosa Canyon Water Reclamation Facility operates under a waste discharge permit issued in 1995 and is due to be updated by the Regional Water Quality Control Board (RWQCB) in the near future. In anticipation of stricter discharge requirements with the updated permit, district staff and consultants have been working with the Regional Board to identify the new requirements and the subsequent facilities that may be required. Staff has initiated projects to improve the solids handling capacity of the plant to receive and process sludge from other District satellite treatment facilities and to improve effluent quality to meet requirements that will be included in the updated permit.

Large Developer Projects

Live Oak Ranch – Concept approval for a 146 lot subdivision located south of Valley Center Road near Cobb Reservoir had been previously approved and the developer has submitted plans for review and approval for the initial phase of construction. Rough grading operation for the project has begun. The proposed facilities include a 40,000 gallon per day water reclamation facility and a booster pump station. Recycled water from the subdivision will be used within the subdivision to reduce irrigation demands of the common open space. The developer has requested the District sponsor an assessment district to sell bonds in accordance with District policy. Bond funds would be used to acquire the facilities once they have been completed by the developer.

Lilac Ranch – Staff has received a preliminary design report for a 350 lot subdivision located between Lilac Road and West Lilac Road along Keys Creek. The development will include an 87,500 gallon per day Water Reclamation Facility. Recycled water from the subdivision will be used within the subdivision to reduce irrigation demands of the common open space. The request for concept approval is scheduled to go to the Board of Directors in late 2007.

AMR Meters provide information quickly, efficiently, and more safely.

AWARDS & ACKNOWLEDGEMENTS

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Valley Center Municipal Water District for its comprehensive annual financial report for the fiscal year ended June 30, 2006. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Valley Center Municipal Water District has received a Certificate of Achievement each year since 1992. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the contribution of the Finance Department staff. Special thanks are extended to the members of the District's Board of Directors for their continued interest and support in all aspects of financial management.

Respectfully Submitted:

Gary T. Arant
General Manager

William J. Jeffrey
Director of Finance

Independent Auditor's Report

To the Board of Directors
Valley Center Municipal Water District
29300 Valley Center Road
Valley Center, California 92082

We have audited the accompanying balance sheet of Valley Center Municipal Water District as of June 30, 2007, and the related statements of revenues, expenses and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Valley Center Municipal Water District at June 30, 2007, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America, as well as the accounting systems prescribed by the State Controller's Office and State Regulations governing Special Districts.

The Management's Discussion and Analysis on pages 3 through 11 is not a required part of the financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The 2007 combining schedule of balance sheets and the 2007 combining schedule of revenues, expenses and changes in net assets are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements as of and for the year ended June 30, 2007, taken as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America and the State Controller's Minimum Audit Requirements for California Special Districts the balance sheet of Valley Center Municipal Water District as of June 30, 2006, and the related statements of revenues, expenses and changes in net assets, and cash flows for the year then ended (none of which is presented herein), and we expressed an unqualified opinion on those financial statements. In our opinion, the 2006 combining schedule of balance sheets and the 2006 combining schedule of revenues, expenses and changes in net assets are fairly stated in all material respects in relation to the basic financial statements from which it has been derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Valley Center Municipal Water District's Comprehensive Annual Financial Report presents management's discussion and analysis of the District's financial performance for the fiscal year ended June 30, 2007. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which follow this section.

FINANCIAL STATEMENTS

This discussion and analysis provides an introduction and a brief description of the District's financial statements, including the relationship of the statements to each other and the significant differences in the information that they provide. The District's financial statements include four components:

- Balance Sheet
- Statement of Revenues, Expenses and Changes in Net Assets
- Statement of Cash Flows
- Notes to the Financial Statements

The balance sheet includes all of the District's assets and liabilities, with the difference between the two reported as net assets. Net assets are displayed in three categories:

- Invested in Capital Assets, Net of Related Debt
- Restricted Net Assets
- Unrestricted Net Assets

The balance sheet provides the basis for evaluating the capital structure of the District and assessing its liquidity and financial flexibility.

The statement of revenues, expenses and changes in net assets presents information that shows how the District's net assets changed during the year. All of the current year's revenues and expenses are recorded when the underlying transaction occurs, regardless of the timing of the related cash flows. The statement of revenues, expenses and changes in net assets measures the success of the District's operations and determines whether the District has recovered its costs through user fees and other charges.

The statement of cash flows provides information regarding the District's cash receipts and cash disbursements during the year. This statement reports cash activity in four categories:

- Operating
- Investing
- Capital financing
- Noncapital financing

This statement differs from the statement of revenues, expenses and changes in net assets by only accounting for transactions that result in cash receipts or cash disbursements.

The notes to the financial statements provide a description of the accounting policies used to prepare the financial statements and present material disclosures required by generally accepted accounting principles that are not otherwise present in the financial statements.

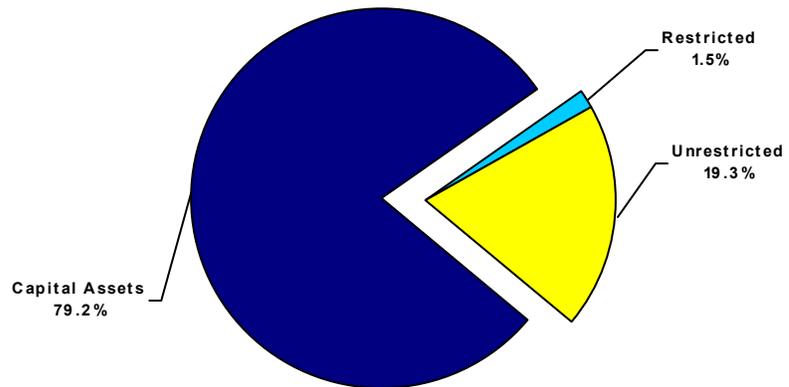

FINANCIAL HIGHLIGHTS

During the year ended June 30, 2007, net assets increased by \$4,728,961. Total revenues were \$47,365,147, which included operating revenues of \$40,956,262, nonoperating revenues of \$4,222,980, and capital contributions of \$2,185,905. Total revenues increased \$8,645,008 from the prior year with total expenses also increasing \$5,077,418. For the year ended June 30, 2007, operating expenses exceeded operating revenues by \$1,649,794 compared to \$2,359,698 for the previous year. Nonoperating revenues of \$4,222,980 exceeded nonoperating expenses of \$30,130. Nonoperating revenues consist primarily of property taxes and assessments, investment income, and the proceeds from litigation. Capital contributions of \$2,185,905 account for the increase in net assets, after adjusting for the loss from operations and the excess of nonoperating revenues over expenses.

FINANCIAL ANALYSIS OF THE DISTRICT

Net Assets - Net assets increased between fiscal years ending 2006 and 2007 from \$81,542,992 to \$86,271,953. Net assets invested in capital assets, net of related debt, increased \$5,467,170, restricted net assets decreased \$1,062,644 with the expenditure of capacity fees and proceeds from energy rate litigation, and unrestricted net assets increased \$324,435 primarily due to the District's nonoperating revenues exceeding nonoperating expenses.

TOTAL NET ASSETS Fiscal Year 2006-07

NET ASSETS

	2007	2006
Current Assets	\$ 27,667,507	\$ 26,178,681
Restricted assets	3,383,728	4,267,473
Capital assets	68,889,318	63,502,148
Total Assets	\$ 99,940,553	\$ 93,948,302
Current liabilities	\$ 10,499,859	\$ 9,349,970
Noncurrent liabilities	3,168,741	3,055,340
Total Liabilities	13,668,600	12,405,310
Net assets:		
Invested in capital assets, net of related debt	68,354,318	62,887,148
Restricted for facility expansion	1,300,411	2,363,055
Unrestricted	16,617,224	16,292,789
Total Net Assets	86,271,953	81,542,992
Total Liabilities and Net Assets	\$ 99,940,553	\$ 93,948,302

Change in Net Assets - The District's operating revenues increased 17.1% to \$40,956,262 as a result of increased consumption attributed to a decrease in rainfall, 7½ inches in 2006-07 compared to 13½ inches in 2005-06.

The District's operating expenses increased 14.1% to \$42,606,056. Operating expenses increased primarily due to an increase in the volume of water purchased in response to the increase in demand noted above.

The District's investment income showed an increase of \$439,269, including unrealized gains and losses on investments. Tax revenues increased \$1,303,952, or 95.6%, to \$2,667,856 due to the end of the Educational Revenue Augmentation Fund (ERAF) property tax shift of \$1.1 million that went to the state in the prior year and to the increase in assessed valuation in property throughout the district. The actual increase in assessed valuation was 13.9%.

ANALYSIS OF OPERATIONS

Water Operations

Revenues for the year ended June 30, 2007, totaled \$44,634,995, which is a 21.2% increase from the prior year. Details of this increase in revenues are as follows:

- Water sales revenue increased by 20.2%, or \$5,020,870, from the prior year. There was a 15.3% increase in the volume of water sold. In 2006-07, 48,085 acre feet of water were billed compared to 41,719 acre feet in the prior year. On March 1, 2007, water rates increased 9.8% for domestic and 12.9% for agricultural, almost entirely due to increases in wholesale costs from the District's suppliers. Meter charges increased 5.7% from \$3,031,610 in 2005-06 to \$3,205,098 in 2006-07 because of increased rates and a slight growth in customers.
- Energy and pumping revenues increased 24.8%, or \$1,125,425, due to the increase in the volume of water sold and the full effect of the January 1, 2006, rate increase.

WATER OPERATIONS REVENUE Fiscal Year 2006-07

- Property taxes and assessments increased by 95.6%, or \$1,303,952, from 2005-06 to 2006-07. This increase is due to the end of the Educational Revenue Augmentation Fund (ERAF) property tax shift, which reduced the District's tax revenues by \$1.1 million in each of the prior two years, and to the increase in assessed valuation in property throughout the district. The District has adopted San Diego County's alternative method of distribution of tax levies and collections under which the County advances 100% of the secured tax levies due to the District each year without consideration for delinquencies.
- Investment income was up 72.5%, or \$375,276, from the prior year. This increase is due to higher, more stable yields seen during the year. Yields fluctuated between 4.5% and 4.8% during the course of the year, compared to yields between 2.9% and 4.2% the prior year.
- The completion of several larger local development projects and the slow down in new housing starts in California is evident in a decrease in meter installation fees of \$263,925, or 55.7% from the prior year.
- Other nonoperating revenues increased \$77,333, or 34.3% in 2006-07. These include rents received from leases for telecommunications facilities.
- Capital contributions, which vary based on developer projects, decreased of \$201,742 or 15.9% from the prior year.

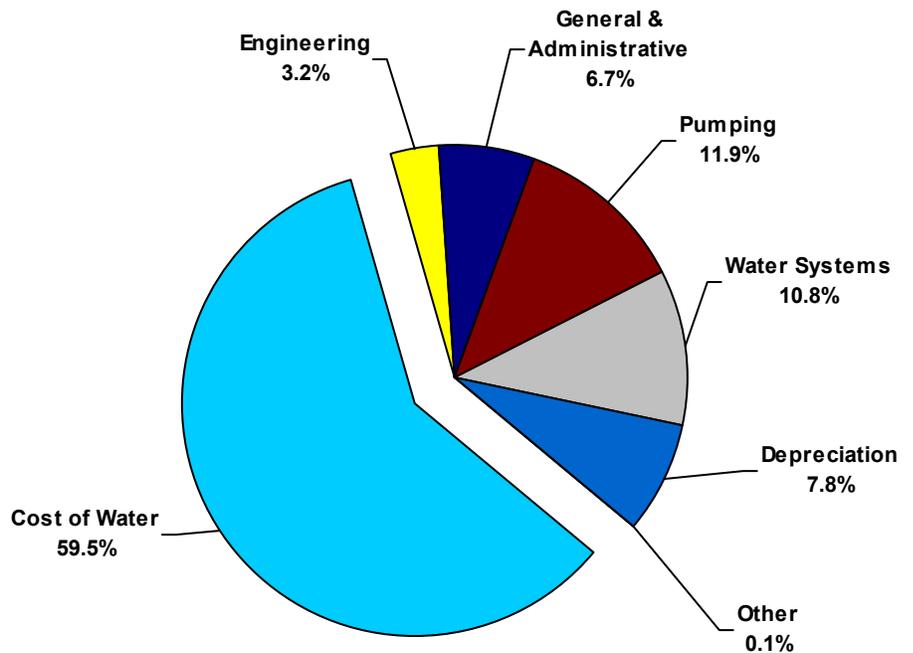

Expenses for the year ended June 30, 2007, totaled \$41,212,259, an increase of 14.0% or \$5,074,190. Certain significant expenses are as follows:

- The cost of water sold increased 17.3% due to increased water deliveries caused by a decrease in rainfall during the year. In 2005-06, the District purchased 44,767 acre feet of water at an average price of \$467 per acre foot. In the current year, the District purchased 50,511 acre feet of water at an average price of \$486 per acre foot, an increase of 4.1% or \$19 per acre foot. The average price per acre foot is impacted by the fixed components of the Metropolitan Water District of Southern California (MWD) and San Diego County Water Authority (SDCWA) rate structure. These fixed components include: a capacity reservation charge by MWD and customer service and emergency storage program charges by the CWA.

- Agricultural rebates received were \$5,762,956 for fiscal year 2006-07, including \$1,289,448 from SDCWA on their melded water rate. This equates to a rebate of \$151 per acre foot. This cost reduction for agricultural water is passed through to the District's qualified agricultural customers.

- Energy and pumping costs associated with the distribution of water for the District increased 11.7%, or \$512,002, due to the increase in water deliveries and higher energy costs.

WATER OPERATIONS EXPENSES Fiscal Year 2006-07

- Water systems operations expenses increased 8.5%, or \$351,901, from the prior year due to increased labor associated with the acceleration of the Automatic Meter Reading (AMR) program, outside services, and operating costs offset by reduced facilities and equipment maintenance.
- General and administrative expenses increased 5.5% or \$143,597 due to increased payroll costs, maintenance, and supplies offset by a reduction in outside services.
- Depreciation expense in 2006-07 increased 12.3%, or \$351,071, from the prior year due to plant additions.
- Other nonoperating expenses were \$1,339 compared to the prior year of \$10,270. This represents a reduction in the undepreciated balance of assets which were replaced during the year.

WATER OPERATIONS CHANGES IN NET ASSETS

	2007	2006	Increase (Decrease)	Percent Change

Sewer Treatment Operations

The Lower Moosa Canyon Water Reclamation Facility serves 2,366 customers in a limited geographic area on the west side of the District. The revenue from sewer charges was \$1,141,361 for 2006-07, an increase of \$51,786 from the prior year. This increase is primarily due to a 4% increase in sewer service connections, as well as rate increases to fund operations and maintenance.

LOWER MOOSA CHANGES IN NET ASSETS

	<u>2007</u>	<u>2006</u>	<u>Increase (Decrease)</u>	<u>Percent Change</u>
REVENUES:				
Sewer charges	\$ 1,141,361	\$ 1,089,575	\$ 51,786	4.8 %
Investment income	73,078	29,555	43,523	147.3 %
Capital contributions	992,868	272,119	720,749	264.9 %
Total revenues	<u>2,207,307</u>	<u>1,391,249</u>	<u>816,058</u>	<u>58.7 %</u>
EXPENSES:				
Energy and pumping costs	112,430	105,193	7,237	6.9 %
Sewer collection and treatment	459,212	477,152	(17,940)	(3.8) %
General and administrative	126,808	130,392	(3,584)	(2.7) %
Depreciation	335,524	288,584	46,940	16.2 %
Total expenses	<u>1,033,974</u>	<u>1,001,321</u>	<u>32,653</u>	<u>3.3 %</u>
Change in Net Assets	<u>\$ 1,173,333</u>	<u>\$ 389,928</u>	<u>783,405</u>	<u>200.9 %</u>

Expenses for the year ended June 30, 2007, totaled \$1,033,974, an increase of 3.3% or \$32,653. Certain significant expenses are as follows:

- Energy and pumping costs were \$7,237 higher than the previous year due to increased connections as well as higher energy costs.
- Sewer collection and treatment costs were 3.8% lower than last year, or \$17,940, due to decreased outside service and operating supplies offset by slightly higher maintenance costs.
- General and administrative expenses were 2.7% lower than last year, or \$3,584. This is due to decreased regulatory permit fees and insurance costs.

The operation had a net profit before capital contributions of \$180,465 for the period ending June 30, 2007 and \$117,809 as of June 30, 2006.

Assessment District No. 96-1 issued bonds in February 1997 under the Improvement Act of 1915 to fund part of the expansion of the Moosa facility. These bonds are not a general obligation of the District and are not presented in this report.

The Woods Valley Ranch Water Reclamation Facility will serve 270 homes and the golf course of the development. Construction of the 70,000 gallon per day permanent facility is in the final stages of completion. Service to the homes, already connected to the system, continues to be provided by a temporary 50,000 gallon per day treatment facility. Service charges and standby fees for properties not yet connected to the sewer system are collected as a fixed charge special assessment on the property tax roll.

WOODS VALLEY RANCH CHANGES IN NET ASSETS

	2007	2006	Increase (Decrease)	Percent Change
REVENUES:				
Sewer Charges	\$ 359,819	\$ 349,059	\$ 10,760	3.1 %
Investment Income	38,047	17,664	20,383	115.4 %
Capital Contribution	124,979	40,320	84,659	210.0 %
Total revenues	<u>522,845</u>	<u>407,043</u>	<u>115,802</u>	<u>28.4 %</u>
EXPENSES:				
Energy Pumping Costs	11,489	0	11,489	100.0 %
Sewer collection and treatment	325,339	84,848	240,491	283.4 %
General and administrative	34,895	25,316	9,579	37.8 %
Depreciation	18,230	18,230	0	0.0 %
Total expenses	<u>389,953</u>	<u>128,394</u>	<u>261,559</u>	<u>203.7 %</u>
Change in Net Assets	<u>\$ 132,892</u>	<u>\$ 278,649</u>	<u>\$ (145,757)</u>	<u>(52.3) %</u>

- Sewer collection and treatment costs were 283.4%, or \$240,491 higher than the previous year due to the District becoming more involved in the day to day operation of the facility prior to completion by the developer. The sewer collection and treatment expenses include \$160,600 reimbursed to the developer for operating costs paid by them.

CAPITAL ASSETS

Capital assets include land, annexation fees, transmission and distribution system, general plant, and construction-in-progress. At June 30, 2007, the District had \$118,522,678 in capital assets with \$49,633,361 of accumulated depreciation. This represents a net increase (additions less deductions) of \$5,387,169, or 8.5% over the prior year. Significant additions include Valley Center Road Improvements, SCADA system improvements, Automatic Meter Reading, Couser Way Pipeline, reservoir re-coatings, Merry Ferry Pressure Reducing Valve upgrade. In addition, contributed assets included 3 miles of water mains and 2/3 mile of sewer main, including mains in Welcome View and Islands subdivisions.

CAPITAL ASSETS

	2007	2006
Land	\$ 3,370,993	\$ 3,356,379
Annexation fees	786,185	786,185
Construction-in-progress	5,770,199	4,313,836
Transmission and distribution system	99,131,896	94,085,813
General plant	9,463,405	7,563,052
Total	<u>\$118,522,678</u>	<u>\$110,105,265</u>

More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

LONG-TERM DEBT

At June 30, 2007, the District had \$535,000 in revenue bonds, compared to \$615,000 in revenue bonds payable at June 30, 2006. No new debt was issued during the year. The District had no general obligation bonded debt at June 30, 2007. As the District has issued no bonded debt for public placement since 1968, it is not rated by any investment rating service. More detailed information about the District's long-term debt is presented in Note 5 to the financial statements.

ECONOMIC FACTORS

The District sets its rates annually based upon anticipated consumption. A significant reduction in consumption could have an adverse effect on the District's financial position. Additionally, the District purchases all of its water from the San Diego County Water Authority. Interruption of this service would have a significant negative effect on the District's financial position. At June 30, 2007, the District had designated \$3,453,043 of its unrestricted net assets as a water operating reserve to mitigate the potential of these effects. This represents approximately four months operating and maintenance expenses.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the financial resources it manages. If you have questions about this report or need additional financial information, contact the Valley Center Municipal Water District's Finance Department at 29300 Valley Center Road, Valley Center, California 92082, or call (760) 749-1600.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

1 - Summary of Significant Accounting Policies

(a) Description of Reporting Entity

The Valley Center Municipal Water District (the “District”) is a governmental corporation governed by an elected five-member board of directors. The District was incorporated July 12, 1954, under the provisions of the California Municipal Water District Act of 1911. The District’s 100 square mile service area lies in northern San Diego County and the majority of its sales are to agricultural users. The District’s offices are located in Valley Center, California.

In keeping its books and records, the District has established various self-balancing groups of accounts in order to enhance internal control and to further the attainment of other management objectives. These groups of accounts are identified in the District’s books and records as General, Lower Moosa Sewer Treatment, and Woods Valley Ranch Sewer. All significant inter-group transactions and accounts are eliminated in the combination of the accounts for the financial statements of the reporting entity.

In addition, the District has established the Assessment District No. 96-1 Lower Moosa Canyon (AD 96-1) to account for the special assessment bonds described in Note 6. The financial position and results of operations of AD 96-1 are excluded from these financial statements.

(b) Basis of Accounting

The District utilizes accounting principles appropriate for an enterprise fund to record its activities. Accordingly, the balance sheets and the statements of revenues, expenses and changes in net assets have been prepared using the economic resources measurement focus and the accrual basis of accounting.

(c) Use of Estimates

The financial statements are prepared in conformity with accounting principles generally accepted in the United States of America and, accordingly, include amounts that are based on management’s best estimates and judgments.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

1 - Summary of Significant Accounting Policies (Continued)

(d) Revenue Recognition

Revenues from water sales and pumping charges, meter installation fees and sewer charges are recognized as they are earned. Taxes and assessments are recognized as revenue based upon amounts reported to the District by the County of San Diego, net of an allowance for estimated uncollectible taxes. The District first utilizes restricted resources to finance qualifying activities.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal operations. The principal operating revenues of the District consist of water sales, sewer service, and connection and installation fees. Nonoperating revenues consists of property taxes and assessments, investment income, and special charges that can be used for either operating or capital purposes. Operating expenses include the cost of sales, operation, maintenance, and administrative expenses, and depreciation on capital assets. Expenses not meeting this definition are reported as nonoperating expenses.

Capital contributions consist of contributed assets and special charges that are legally restricted for capital expenditures by state law or by the Board action that established those charges.

(e) Property Taxes and Assessments

Property taxes and assessments are billed by the County of San Diego to property owners. The District's property tax calendar for the fiscal year ended June 30, 2007, was as follows:

Lien Date:	January 1
Levy Date:	July 1
Due Date:	First Installment - November 1 Second Installment - February 1
Delinquent Date:	First Installment - December 10 Second Installment - April 10

The County collects the taxes from the property owners and remits the funds to the District periodically during the year. The District has an arrangement with the County whereby the County remits taxes which are delinquent as of each June 30 to the District in exchange for the right to retain the delinquent taxes, penalties, and interest when these amounts are subsequently collected.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

1 - Summary of Significant Accounting Policies (Continued)

(f) Cash and Cash Equivalents

Cash and cash equivalents include deposits in SEC-registered money market mutual funds, deposits in external investment pools, and marketable securities that mature within three months of purchase. Such marketable securities and deposits in money market funds are carried at fair value. Investment pool deposits are carried at the District's proportionate share of the fair value of each pool's underlying portfolio.

(g) Investments

Investments are stated at their fair value, which represents the quoted or stated market value. Investments in external pools which are not traded on a market, are valued at the stated fair value as represented by the external pool.

(h) Accounts Receivable - Water and Sewer

Water and sewer accounts receivable of \$6,169,840 have been reduced by an allowance for estimated uncollectible accounts in the amount of \$47,776 at June 30, 2007.

(i) Inventory

Inventory of materials used in the construction and maintenance of capital assets is valued at the lower of current average cost or market. Water inventory is valued at cost.

At June 30, 2007 inventory consists of the following:

Water inventory	\$128,431
Materials inventory	<u>502,141</u>
	<u>\$630,572</u>

(j) Capital Assets

Capital assets are recorded at historical cost. Contributed assets are recorded at their fair market value at the date of donation. Self-constructed assets are recorded in the amount of direct labor, material, and certain overhead. The District capitalizes all assets with a cost of at least \$2,000 and a useful life of at least two years. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend their lives are not capitalized.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

1 - Summary of Significant Accounting Policies (Continued)

(j) Capital Assets (Continued)

Depreciation is charged to expense for all capital assets, including assets contributed to the District, and is computed using the straight-line method over the following estimated useful lives:

	<u>Useful Life</u>
Transmission and distribution system	10 - 40 years
General plant	3 - 40 years

(k) Accrued Compensated Absences

Vested or accumulated vacation and sick leave is recorded as an expense and liability as benefits accrue to employees. Accrued compensated absences totalled \$1,272 at June 30, 2007. The District estimates the current portion to be \$637,000. The following is a detail:

	<u>Balance June 30, 2006</u>	<u>Earned</u>	<u>Used</u>	<u>Balance June 30, 2007</u>	<u>Current Portion</u>
Accrued compensated absences	\$ <u>1,213,222</u>	\$ <u>561,584</u>	\$ <u>502,382</u>	\$ <u>1,272,424</u>	\$ <u>637,000</u>

(l) Interest

Interest costs, less interest earned on related tax-exempt borrowings, are capitalized during the period of major capital asset additions. The capitalized interest is recorded as part of the asset to which it is related and is depreciated over the estimated useful life of the related asset. No interest was capitalized during the year.

(m) Classification of Liabilities

Certain liabilities which are currently payable have been classified as noncurrent because they will be funded from restricted assets.

(n) Unrestricted Net Assets

The unrestricted net assets of the District are restricted by state law for sole use by the District for its operations. They are reported as unrestricted net assets in the accompanying financial statements because this restriction corresponds to the general purpose for which the District has been established. They are unavailable for other government uses and are committed to the ongoing operations of the District, including amounts necessary to cover contingencies, unanticipated expenditures, revenue shortfalls, and weather and economic fluctuations.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

1 - Summary of Significant Accounting Policies (Continued)

(o) Pronouncements of GASB and FASB

The District applies all relevant pronouncements of the Governmental Accounting Standards Board (GASB) as well as those pronouncements of the Financial Accounting Standards Board issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

2 - Cash and Investments

(a) Authorized Investments

The District's Ordinances authorize the District to invest in bonds issued by the District; obligations of the United States Treasury, agencies, and government-sponsored enterprises; certificates of deposit at commercial banks and savings and loans when insured or collateralized in accordance with law; shares of beneficial interest issued by a diversified management company as authorized by California Government Code Section 53601(k); the State of California Local Agency Investment Fund; as well as deposits with the Treasurer of the County of San Diego.

These authorized investments are more restrictive than those permitted by the California Government Code, which would also allow investments in prime commercial paper, bankers' acceptances, repurchase and reverse repurchase agreements, financial futures or financial options contracts, obligations of the State of California, and obligations of local agencies within California.

Cash and investments held by the District were comprised of the following at June 30, 2007:

	<u>Fair Value</u>	<u>Investment Maturities (In Years)</u>	
		<u>Less Than 1</u>	<u>1 - 5</u>
Cash on Hand	\$ 1,200	\$ 1,200	\$
Cash in the California Local Agency Investment Fund	6,252,242	6,252,242	
Open Ended Money Market Mutual Funds	127,502	127,502	
Demand Deposits	168,913	168,913	
Investments:			
United States Agency Securities	14,129,572	9,257,611	4,871,961
Certificates of Deposit	493,524	81,309	412,215
Total Cash and Investments	<u>\$21,172,953</u>	<u>\$15,888,777</u>	<u>\$5,284,176</u>

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

2 - Cash and Investments (Continued)

(a) Authorized Investments (Continued)

Financial Statement Classification:	
Cash and Cash Equivalents	\$ 6,501,243
Investments	11,287,982
Restricted cash and cash equivalents	48,614
Restricted Investments	<u>3,335,114</u>
Total	<u>\$21,172,953</u>

(b) Concentration of Credit Risk

The District’s policy is that investments should be diversified through limited investment to avoid over-concentration in securities from a specific issuer (excluding U.S. Treasury securities), by varying maturities, and by investing a portion of the portfolio in external investment pools or money market funds to ensure that appropriate liquidity is maintained in order to meet ongoing obligations. The District further limits certificates of deposit to 30 percent of its portfolio. State law limits investment in money market funds by 20% of the total portfolio, and investments in any one fund to 10%. At June 30, reportable investments representing more than 5% of the District’s investment portfolio are as follows:

<u>Issuer</u>	<u>Percentage</u>
United States Government Sponsored Enterprises:	
Federal Home Loan Bank	16.5
Federal Home Loan Mortgage Corporation	32.9
Federal National Mortgage Association	13.4

(c) Credit Risk

The District’s ordinances subject management to the investment portfolio to the “prudent investor” standard, which states that “Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.” Certificates of deposit must be fully insured and have a rating of satisfactory or better. As of June 30, the District’s investments were rated by Standard & Poor’s and by Moody’s Investors Service as follows:

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

2 - Cash and Investments (Continued)

(c) **Credit Risk** (Continued)

	<u>Standard & Poor's</u>	<u>Moody's</u>
California Local Agency Investment Fund	Not rated	Not Rated
Open Ended Money Market Funds	AAA	Aaa
United States Government Sponsored Enterprises:		
Federal Farm Credit Bank	AAA	Aaa
Federal Home Loan Bank	AAA	Aaa
Federal Home Loan Mortgage Corporation	AAA	Aaa
Federal National Mortgage Association	AAA	Aaa
Tennessee Valley Authority	AAA	Aaa

(d) **Custodial Credit Risk**

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. To eliminate custodial credit risk, the District's ordinances require that all demand deposits be entirely insured or collateralized and that all investment securities be in the name of the District and held by an insured depository. At June 30, the District held no deposits or investments that were exposed to custodial credit risk.

(e) **Interest Rate Risk**

The District's ordinances state that the District will structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The District cannot invest in any security that could result in zero interest accrual if held to maturity. Maturities are limited to five years.

(f) **Foreign Currency Risk**

The District is not exposed to foreign currency risk.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

3 - Restricted Assets

Restricted assets were provided by, and are to be used for, the following at June 30, 2007:

<u>Funding Source</u>	<u>Use</u>	
District contributions	Benefit plan liability	\$2,083,317
Proceeds of energy settlement	Projects promoting energy efficiency	329,624
Capacity fees	Facility expansion	<u>970,787</u>
		<u>\$3,383,728</u>

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as necessary.

4 - Capital Assets

Capital assets consist of the following:

	<u>Balance at June 30, 2006</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance at June 30, 2007</u>
Capital Assets Not Being Depreciated:				
Land	\$ 3,356,379	\$ 15,000	\$ (386)	\$ 3,370,993
Annexation fees	786,185			786,185
Construction in progress	<u>4,313,836</u>	<u>7,307,377</u>	<u>(5,851,014)</u>	<u>5,770,199</u>
	<u>8,456,400</u>	<u>7,322,377</u>	<u>(5,851,400)</u>	<u>9,927,377</u>
Capital Assets Being Depreciated:				
Transmission and distribution system	94,085,813	5,418,490	(372,407)	99,131,896
General plant	<u>7,563,052</u>	<u>2,127,566</u>	<u>(227,213)</u>	<u>9,463,405</u>
	<u>101,648,865</u>	<u>7,546,056</u>	<u>(599,620)</u>	<u>108,595,301</u>
Less Accumulated Depreciation:				
Transmission and distribution system	<u>(46,603,117)</u>	<u>(3,567,080)</u>	<u>536,837</u>	<u>(49,633,360)</u>
Net Capital Assets Being Depreciated	<u>55,045,748</u>	<u>3,978,976</u>	<u>(62,783)</u>	<u>58,961,941</u>
Net Capital Assets	<u>\$ 63,502,148</u>	<u>\$11,301,353</u>	<u>\$(5,914,183)</u>	<u>\$ 68,889,318</u>

Depreciation totalled \$3,567,080 for the year ended June 30, 2007.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

5 - Long-Term Debt - Revenue Bonds

On June 29, 1993, the District issued to a bank \$1,400,000 of water revenue bonds, the proceeds of which were used to pay off a previous loan which had been obtained to finance legally required water system improvements. Revenue bonds outstanding at June 30, 2007, total \$535,000. Varying amounts of principal plus interest at 5.15% (as of June 30, 2007) are payable semiannually. The final maturity date for the current outstanding bonds is July 1, 2012. Interest is payable at 62% of the bank's prime rate, but not to exceed 12%. The net water revenues of the District are pledged to pay the principal and interest on the bonds, and the bonds are subject to call and redemption prior to maturity on any date at par plus accrued interest to the redemption date.

Following is a detail of the revenue bonds outstanding.

	<u>Balance</u> <u>June 30, 2006</u>	<u>Deletions</u>	<u>Balance</u> <u>June 30, 2007</u>	<u>Current</u> <u>Portion</u>
Revenue Bonds	<u>\$615,000</u>	<u>\$80,000</u>	<u>\$535,000</u>	<u>\$85,000</u>

Aggregate maturities of the revenue bond for fiscal years subsequent to June 30, 2007, are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2008	\$ 85,000	\$12,941	\$ 97,941
2009	90,000	22,225	112,225
2010	95,000	17,493	112,493
2011	100,000	12,436	112,436
2012	110,000	7,119	117,119
2013	<u>55,000</u>	<u>1,422</u>	<u>56,422</u>
	<u>\$535,000</u>	<u>\$73,636</u>	<u>\$608,636</u>

6 - Special Assessment Bonds

On February 5, 1997, Valley Center Municipal Water District Assessment District No. 96-1 (AD 96-1) issued \$1,743,654 of limited obligation improvement bonds pursuant to the provisions of the Municipal Improvement Act of 1913 and the Improvement Bond Act of 1915. Under the Acts, the District is not obligated to repay the AD 96-1 bonds and the District does not intend in any manner to assume responsibility for the repayment of such debt. The bonds proceeds were used to establish reserve funds, pay bond issuance costs, refund to certain AD 96-1 property owners previous costs advanced, and expand the Lower Moosa Canyon water reclamation facility. AD 96-1 bonds payable at June 30, 2007 totalled \$1,075,000.

VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

6 - Special Assessment Bonds (Continued)

The bonds and interest are paid from annual special assessments on property within AD 96-1. The annual assessments are billed to and collected from the AD 96-1 property owners, along with other property taxes and assessments, and remitted to the District. The District remits the annual assessments as well as any prepaid assessments received from property owners to the AD 96-1 trustee (a commercial trust company) for eventual payment to the bondholders.

7 - Benefit Plan Liability

The District's Board of Directors adopted the Retirees' Health Benefits Plan (Plan) on January 16, 1995, for the benefit of all individuals (excluding members of the Board of Directors) employed by the District. The Plan is permitted under Government Code Section 53200 et. seq. and generally provides that the District will pay all or a portion of the premiums for certain postemployment health insurance coverage for participants. The Plan administrator is a committee appointed by the District's Board of Directors.

Plan benefits are based upon certain age and service requirements, as well as the particular participant's option elected by a retiring eligible employee. After an eligible employee (and a dependent spouse for an electing eligible employee) begins participation in the Plan and until the employee reaches Medicare-eligible age, the District will pay all or a portion of the premium for health insurance coverage under its group plan for current employees. After Medicare-eligible age is reached, the District will pay indefinitely all or a portion of the premium for coverage under the Medicare supplement of its group plan for current employees plus coverage under Medicare Part B.

The Plan provides that the premium cost of benefits is to be paid solely from the general assets of the District and there is no Plan requirement for the District to advance-fund Plan benefits, thus the District accounts for the Plan on a pay-as-you-go basis. The District paid \$58,424 for post-retirement healthcare benefits during the year ended June 30, 2007. As of June 30, 2007, fourteen retired employees are receiving post-retirement healthcare benefits from the District.

The District's Board of Directors, wholly in its discretion, periodically resolves to restrict assets for the payment of Plan benefits. No assets have been transferred to the Plan administrator. If in the future these accumulated amounts appear insufficient to pay for Plan benefits, it is presently the Board's intention that the Plan would be amended to reduce its benefits. The present intentions of the Board are described herein solely for informational purposes and do not bind current and future members of the District's Board of Directors.

VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007

7 - Benefit Plan Liability (Continued)

The Plan requires that any separately accumulated funds will, upon Plan discontinuance or termination and after payment of necessary expenses, be distributed equitably among the District's then active employees, eligible employees, and Plan participants. Under the terms of the Plan, the District's liability, payable from assets restricted for the purpose, to employees or for the benefit of Plan participants at June 30, 2007, was \$2,083,317. The liability will become payable upon the sooner of Plan termination or as the payment of participants' health insurance premiums become due. This liability is the amount enforceable under the current plan and does not reflect a current actuarially determined liability.

The District has determined that the present value of the unfunded actuarial liability for other post employment benefits as of June 30, 2006, is between \$6,675,800 and \$11,750,700, with an actuarial contribution between 11.5% and 15.7%. The District will be required to record a liability for post employment benefits when it implements Governmental Accounting Standards Board Statement 45 "Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pensions" (GASB 45) during the year ended June 30, 2009. The estimated liability above was not calculated using GASB 45 Standards and no actuarial liability has been recorded in the financial statements of the District.

8 - Unrestricted Net Assets

In addition to the restricted net assets (See Note 3) unrestricted net assets have been designated by the board of directors for the following purposes as of June 30, 2007:

Master plan system improvements	\$ 7,351,752
Operating reserve	3,622,469
Pumping rate stabilization	2,162,141
Sewer capital replacement reserves	1,435,241
Unrestricted and undesignated net assets	851,950
Rate stabilization reserve	507,182
Vehicle replacement	374,789
Agricultural rebate	235,671
Continuing capital projects - Woods Valley	<u>76,029</u>
Unrestricted Net Assets	<u>\$16,617,224</u>

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

9 - Defined Benefit Pension Plan

(a) Plan Description

The District began participation in a defined benefit pension plan, (the “Plan”) on June 30, 2001, which provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Plan is part of the Public Agency portion of the California Public Employees Retirement System (CalPERS), a cost-sharing multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions, as well as other provisions, are established by State statutes within the Public Employees’ Retirement Law. The Plan selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through District resolution. CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS’ annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

(b) Funding Policy

The District has elected to make contributions on behalf of its employees at the required amount of 7% of their annual covered salary. The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for the fiscal year ended June 30, 2007, was 20.142%. The contribution requirements of the plan members are established by State statute and the employer contribution rate is established and may be amended by CalPERS.

(c) Annual Pension Costs

For the fiscal year ended June 30, 2007, the District’s annual pension cost and actual contribution was \$1,394,443. The required contribution for the fiscal year ended June 30, 2007, was determined as part of the June 30, 2004, actuarial valuation.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

(c) Annual Pension Costs (Continued)

The following is a summary of the actuarial assumptions and methods:

Valuation Date	June 30, 2006
Actuarial Cost Method	Entry Age Actuarial Cost Method
Amortization Method	Level Percent of Payroll
Average Remaining Period	16 Years as of the Valuation Date
Asset Valuation Method	15 Year Smoothed Market
Actuarial Assumptions:	
Investment Rate of Return	7.75% (net of administrative expenses)
Projected Salary Increases	3.25% to 14.45% depending on age, service, and type of employment
Inflation	3.00%
Payroll Growth	3.25%
Individual Salary Growth	A merit scale varying by duration of employment coupled with an assumed annual inflation growth of 3.00% and an annual production growth of 0.25%.

The excess of the total actuarial accrued liability over the actuarial value of plan assets is called the unfunded actuarial accrued liability. Funding requirements are determined by adding the normal cost and an amortization of the unfunded liability as a level percentage of assumed future payrolls. All changes in liability due to plan amendments, changes in actuarial assumptions, or changes in actuarial methodology are amortized separately over a 20-year period. In addition all gains or losses are tracked and amortized over a rolling 30-year period. Finally, if a pool's accrued liability exceeds the actuarial value of assets, the annual contribution with respect to the total unfunded liability may not be less than the amount produced by a 30-year amortization of the unfunded liability.

Risk pooling was implemented with the June 30, 2003 valuation. At the time of joining a risk pool, a side fund was created to account for the difference between the funded status of the pool and the funded status of the District's Plan. The side fund for the District's Plan as of June 30, 2007 was a negative \$9,253,208.

The side fund will be credited, on an annual basis, with the actuarial investment return assumption. This assumption is currently 7.75%. The negative side fund caused the District's required employer contribution rate noted above to be increased by the amortization of the side fund. In the absence of subsequent contract amendments of funding changes, the side fund will disappear at the end of the amortization period. The amortization period remaining as of June 30, 2007, was 28 years.

<u>Required Contributions for Last Three Years</u>			
<u>Fiscal Year</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension Obligation</u>
June 30, 2005	\$1,617,481	100%	\$-0-
June 30, 2006	1,298,576	100%	-0-
June 30, 2007	1,394,443	100%	-0-

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

10 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (JPIA). The JPIA is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et. seq. The purpose of the JPIA is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage from commercial insurance carriers to reduce its exposure to large losses.

The District pays annual premiums for its liability (auto, general, and public officials), property loss, workers' compensation, and fidelity bond coverage. They are subject to retrospective adjustments based on claims experience. The nature and amounts of these adjustments cannot be estimated and are charged or credited to expense as invoiced. The District's insurance expense for the year ended June 30, 2007, was \$184,006. There were no instances in the past three years where a settlement exceeded the District's coverage.

11 - Economic Dependency

All water sold by the District is purchased from the San Diego County Water Authority. All electricity and natural gas used by the District for pumping and operations is purchased from San Diego Gas and Electric.

12 - Commitments and Contingencies

(a) Contracts

The District has entered into various contracts for the purchase of material, and construction of facilities. The amounts contracted for are based on the contractors' estimated cost of construction. At June 30, 2007, the total unpaid amounts on these contracts was \$4,277,961.

(b) Litigation

There are pending lawsuits in which the District is involved. The District's management and legal counsel estimate that the potential claims against the District, not covered by insurance, if unfavorable decisions are rendered in these pending legal actions, would not materially affect the operations or financial condition of the District.

**VALLEY CENTER MUNICIPAL WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2007**

13 - New Governmental Accounting Standards

GASB No. 45

In June 2004, the Government Accounting Standards Board issued Statement No. 45 “Accounting and Financial Reporting by Employers for Post Employment Benefits Other Than Pension”. This pronouncement is effective for the year ended June 30, 2009. This pronouncement requires significant changes to the accounting and disclosures associated with postemployment benefits (OPEB). The District has not determined the effect on the financial statements in the year of adoption.

GASB No. 48

In September 2006, the Governmental Accounting Standards Board issued Statement No. 48 “Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers to Assets and Future Revenues.” This pronouncement is effective for periods beginning after December 15, 2006. This Statement establishes criteria that governments will use to ascertain whether the proceeds received in an exchange of an interest in future cash flows should be reported as revenue or a liability. Implementation of this pronouncement had no affect on the change in net assets of the District for the year ended June 30, 2007.

GASB No. 49

In November 2006, the Governmental Accounting Standards Board issued Statement No. 49 “Accounting and Financial Reporting for Pollution Remediation Obligations.” This pronouncement is effective for periods beginning after December 15, 2007. This Statement addresses accounting and financial reporting standards for pollution (including contamination) remediation obligations, which are obligations to address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities such as site assessments and cleanups. The District has not determined the effect on the financial statements in the year of adoption.

GASB No. 50

In May 2007, the Governmental Accounting Standards Board issued Statement No. 50 “Pension Disclosures--an amendment of GASB Statements No. 25 and No. 27.” This pronouncement is effective for periods beginning after June 15, 2007. This Statement more closely aligns the financial reporting requirements for pensions with those of other post-employment benefits (OPEB) and in doing so, enhances information disclosed in notes to the financial statements or presented as required supplementary information (RSI) by pension plans and by employers that provide pension benefits. The District has not determined the effect on the financial statements in the year of adoption.

13 - New Governmental Accounting Standards (Continued)

GASB No. 51

In June 2007, the Governmental Accounting Standards Board issued Statement No. 51 “Accounting and Financial Reporting for Intangible Assets.” This pronouncement is effective for periods beginning after June 15, 2009. Retroactive reporting of these intangible assets is encouraged but not required. This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. The District has not determined the effect on the financial statements in the year of adoption.

STATISTICAL
SECTION

STATISTICAL SECTION

This part of the Valley Center Municipal Water District’s (the “District”) comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District’s overall financial health.

CONTENTS	PAGE
Financial Trends	43
<i>These schedules contain trend information to help the reader understand how the District’s financial performance and well-being have changed over time.</i>	
Revenue Capacity	46
<i>These schedules contain information to help the reader access the District’s two most significant local revenue sources, water sales and property levies.</i>	
Debt Capacity	55
<i>These schedules present information to help the reader access the affordability of the District’s current levels of outstanding debt and the District’s ability to issue additional debt in the future.</i>	
Demographic and Economic Information	58
<i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the District’s financial activities take place.</i>	
Operating Information	60
<i>These schedules contain service and infrastructure data to help the reader understand how the information in the District’s financial report relates to the services the District provides and the activities it performs.</i>	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) A detailed schedule of water sales is presented in Table III.

(2) Net of rate credits from San Diego County Water Authority and Metropolitan Water District of \$1,102,132 in 2004 and \$635,111 in 2003.

(3) Restated for unrealized gains and losses pursuant to GASB Statement No. 31, which was effective in 1998.

(4) Includes energy settlement of \$248,270 in 2007, \$473,798 in 2005, \$421,1554 in 2004, and \$556,444 in 2003.

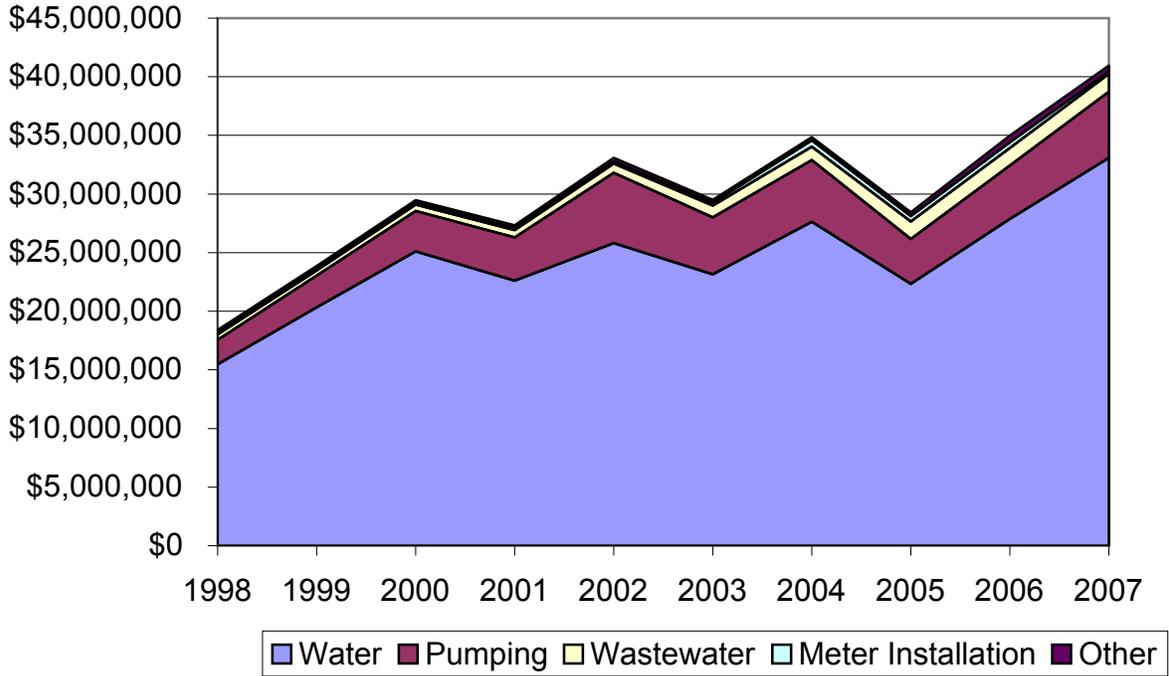

(5) Includes loss on termination of projects and disposition of assets.

(6) Capital contributions reported as additions to contributed equity until GASB Statement No. 33 in 2000.

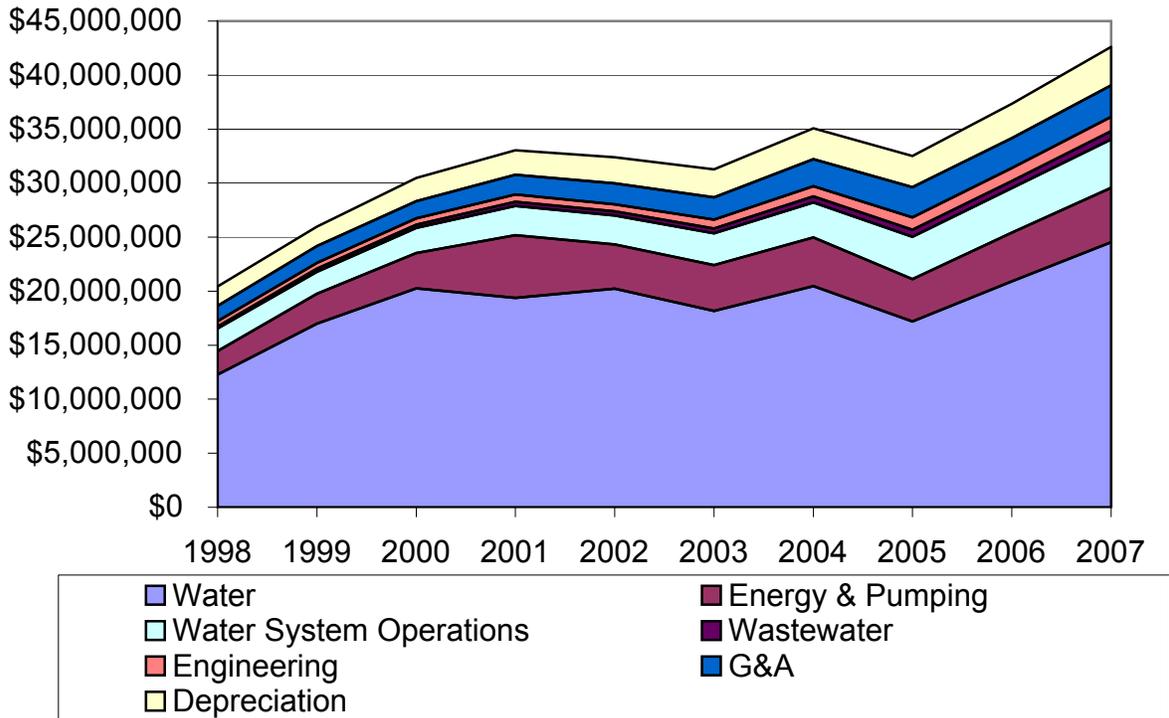

(7) Net of credits for Metropolitan Water District refunds of \$554,111 in 2001.

1999	1,436,622	863,270	2,299,892	2,275,044	24,848	0%
1998	1,477,490	787,469	2,264,959	2,243,518	21,441	0%

- (1) Percent delinquencies for assessments and property taxes are the same since they are both collected on one tax bill.
- (2) Collections do not include miscellaneous adjustments.
- (3) Net Delinquent includes uncollectible portion.
- (4) Percent delinquent represents current secured only. Beginning in fiscal year 1993-94, the County of San Diego remitted to the District 100% of the secured property taxes and special assessments assessed. The County of San Diego then pursued collection of any remaining delinquencies through the Teeter Plan
- (5) Property Taxes net of \$1,097,331 as a result of SB1096 Property Tax Shift.
- (6) Includes special assessments for limited obligation bonds.
